DETAILED ACTION

Response to Amendment

The reply filed on 6/17/04 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the traversal of the species restriction made on 7/29/03 is improper. The reply of 10/29/03 with respect to the species restriction of 7/29/03 did not traverse the species election/restriction. Since applicants have already received an action on the merits for the originally presented species, hence, the non-elected species have been withdrawn from consideration. Accordingly, claims 16, 23, 24, 25, 28-31 (corresponding to the original claims 16, 23-25 and 28-31, respectively) were withdrawn from consideration as being directed to a non-elected species.

Note the restriction was made under the species restriction simply to differentiate the structurally different peptides (which actually are subgenus of the claimed peptide). A tandem repeat peptide, which contains two or more, repeating amino acids are structurally different from the elected D-amino acids. D-amino acids or cyclic peptides are not tandem repeats. Thus, the amendment to the claims filed on 6/17/04 does not comply with the requirements of 37 CFR 1.121(c) because these claims which have been withdrawn from consideration do not have the

correct status identifiers i.e., withdrawn instead of currently amended.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
